The most advanced vehicle care program in the UK

## MOMENTUM WARRANTIES BRAND STORY

In 2004, Momentum Warranties started with a simple idea – to provide motorists and dealerships with reliable, affordable protection against unexpected repair costs. Founded by industry veterans with decades of combined expertise, Momentum sought to bring transparency and innovation to the warranty space.

What began as a small business soon blossomed into the UK's leading independent vehicle warranty provider. Momentum's commitment to putting customers first and simplifying the claims process set them apart. Their hassle-free warranties gave drivers peace of mind on the road while helping dealers sell more vehicles.
